**1. Election/Restrictions**

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to processing agent classified in class 709, subclass 202.

Group II, claim(s) 10-25, drawn to network resources access controlling classified in class 709, subclass 229.

Group III, claim(s) 26-39, drawn to speech assisted network classified in class 704, subclass 270.1.

The inventions are distinct, each from the other because of the following reasons:

**2.** Inventions III, II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as user support apparatus and system using agents as supposed to invention II which relates to user support apparatus and system controlling network access resources, and invention III which relates to user support apparatus and system identifying user utterance. See MPEP § 806.05(d).

**3.** Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

**4.** During a telephone conversation with Shoko Leek (Registration No.

Art Unit: 2157

19,257) on August 18, 2004, she requested a written restriction be sent.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. **Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to El Hadji M Sall whose telephone number is 703-306-4153. The examiner can normally be reached on 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on 703 308-7562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
